

— A PARTNERSHIP — FOR PROACTIVE CARE

We will work together, in partnership, to optimize your well being. The first step in this process is the development of a customized wellness plan based on your annual physical exam and detailed health history.

After the physical and health history, we will meet and discuss the results of your examination and tests, identify areas on which we need to focus, and craft a wellness plan customized just for you. We will work together to ensure that you are implementing your plan.

If you are not realizing the results you desire, we will adjust your plan. While we will bill your insurance for the physical, you will not be required to pay any additional out-of-pocket fees above your standard co-payment and deductible. Lab tests and x-rays may be charged separately.

— EXPECT MORE FROM — PERSONALIZED HEALTHCARE

As a member of Dr. Kadet's Personalized Care Program you can expect the following:

- » A custom tailored wellness plan
- » Dr. Kadet's undivided attention
- » Same or next business day appointments
- » On time appointments that are unhurried
- » 24/7 availability via phone, email or text
- » Office visits for visiting friends and family

PUTTING PATIENTS At The Center Of Healthcare

WHY PERSONALIZED CARE, WHY NOW?

Simply put, the current US Healthcare model is broken.

Today's US Healthcare system focuses on disease management rather than wellness management. Decreased payments for medical services and mounting paperwork are keeping quality physicians from spending enough time with patients. Primary care medicine is no longer based on the one-on-one relationship between physician and patient, but has devolved into an impersonal system measured on patient engagement efficiency.

Thoughtful patients are therefore taking a serious interest in proactively managing their own health by changing their focus from visiting the doctor only when they are ill, to working with their doctor to stay healthy.

Dr. Kadet is committed to each and every one of his patients. He will provide each member with his undivided attention in an unhurried and thoughtful manner. Appointments will be easy to book, start on time and will last as long as needed.

Longer visits enable Dr. Kadet to provide whole-person care, rather than the more typical treatment of one medical problem per visit.

By limiting his panel, Dr. Kadet will be able to partner with you to optimize your well being.

This partnership will enable increased patient-doctor interaction, patient education, preventive care and follow up. By taking an active role in their healthcare, people may detect early signs of serious illness, decrease the need for prescription drugs and increase both quality of life as well as life expectancy.

Is It Worth The Cost?

The peace of mind of knowing that your trusted physician, Dr. Kadet, is just a phone call, email or text away, and that he will have the time to care for you to the utmost of his abilities, is priceless.

Ask yourself, are you worth it?

As one of a few, rather than one of many patients, members enjoy more time with and enhanced availability and service from their personalized physician.
